### PIK Group

Russia, [pik-group.com](http://pik-group.com)

#### Head of Product

Developed and implemented a central task management system, now our users can make a decision about signing a new document, signing someone vacation plan, pay bills and other actions from one place online in the browser or from the mobile application.

Can help with Intranet development, know about hidden problems and nuances. I have 3 years of experience in developing Intranet, moving to microservice architecture with docker from SharePoint.

I know how to create a proper atmosphere in a team to make projects on time. Can collect task requirements from a customer or from many customers.

I am responsible for IT-HR area in our company. I have two project managers, 10 developers, 2 analysts and 2 testers. Also, I care about system architecture and technologies that we use in our projects, such as CI CD cycles in VSTS, .Net Core + Docker Containers in Kubernetes.

April 2016 — July 2018  
2 years 4 months

### PIK Group

Russia, [pik-group.com](http://pik-group.com)

#### Head of Software Development

Implemented new DevOps practices and microservice architecture.

Developed and implemented Intranet Portal, now it's the most important service in the company, we have 5000 daily users, it's 80% of employees that have access to the web systems.

Developed and implemented BI system to control all stages of building development.

February 2013 — May 2017  
4 years 4 months
